PROWESS

Cutting Through the Hype: Evaluating Modern AI Data Platforms

Assess infrastructure through technical reality, not marketing promises.

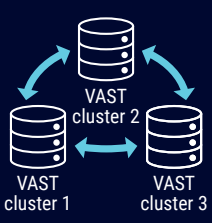

Because 93 percent of enterprise data resides outside the cloud, processing data where it lives is critical for AI scale.[1]

Competitive Solution Overview

Heterogeneous in-place discovery

NetApp

Global namespace

VAST Data

Intelligent data discovery layer

Everpure

Federated control plane

Starburst

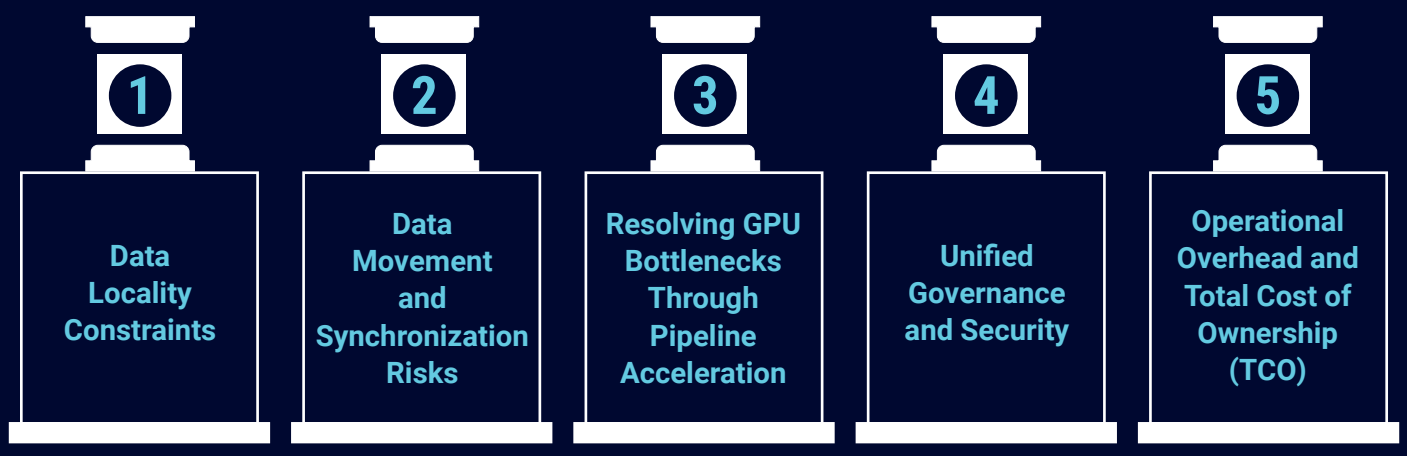

Apache Spark™

Elastic®

Open analytics tools

Dell

Prowess Consulting assessed the leading platforms against five architectural pillars:

To see the complete assessment, read the technical research study:

Navigating Data Locality, Pipeline Performance, and Operational Complexity in Enterprise AI Infrastructures

Endnotes
